## Professional Summary

Passionate **Python Developer** with 1.5 years of experience specializing in **Backend Development** using Django and Frappe frameworks. Skilled in developing RESTful APIs, automating tasks, and integrating third-party services. Proven track record in delivering efficient, scalable applications for ERP systems and real-world business solutions.

## Technical Skills

- **Languages:** Python, JavaScript
- **Frameworks:** Django, Django REST Framework (DRF), Frappe (ERPNext), Jinja
- **Frontend:** HTML5, CSS3, JavaScript, Bootstrap
- **Databases:** MySQL, MariaDB, PostgreSQL
- **Tools:** GitHub, GitLab, Docker, REST API, Postman
- **Cloud & DevOps:** Azure, AWS (S3), Vercel, CI/CD Pipelines

## Professional Experience

### Python/Backend Developer

Techseria | May 2024 - Present

- Developed ERP functionalities for **Digo (Singapore Client)**, including Reports, Workflows, API Integration, User Management, and Data Import/Export.
- Built an **Azure Backup Module** in Frappe to automate site backups with configurable settings (backup type, retention, scheduling).
- Automated task scheduling, implemented custom notifications, and optimized data handling using advanced Frappe scripting.

### Python Developer

Brainy Beans Technology | Aug 2023 - Apr 2024

- Led the development of a **Hotel Booking Web App** using Django, integrating Razorpay for payments, user authentication, and booking management.
- Designed RESTful APIs to handle dynamic data and deployed solutions to GitHub and Vercel for public access.

## Projects

### Resource Center Platform

[GitHub](#) | [Live Demo](#)

- Web platform for uploading, managing, and downloading resources with secure user authentication and file management.
- **Technologies Used:** Django, PostgreSQL, HTML, CSS, JavaScript, Bootstrap, Deployed on Vercel.

### Hotel Booking System

[GitHub](#)

- Developed a full-stack booking system with Razorpay payment integration, order history tracking, and role-based authentication.
- **Technologies Used:** Django, MySQL, Razorpay API, HTML, CSS, JavaScript, Bootstrap.

### News Portal App

[GitHub](#) | [Live Demo](#)

- Created a news aggregation app using external APIs with search, category filters, and responsive UI for real-time updates.
- **Technologies Used:** JavaScript, News API, HTML, CSS, Deployed on Vercel.

## Education

- Bachelor of Computer Application(BCA) from Gujarat University with an Average CGPA of 8.0 2021-2024
